

## Phase 1: Pantry

Urgently needed to meet government regulations for inventory tracking and bring order to our stored goods. The Pantry will help us make the best use of time and materials.

**Estimate: \$80,000**

## Phase 2: Solar Panels

Light it up! We're going green to save \$800 per month on electricity. That will buy a lot of diapers and formula.

**Estimate: \$75,000**

At a certain point, every family needs a little "home improvement."

# Foundation Forward

Engineering Ministries International assessed our needs and potential to take the care of our flock to the next level.

These 5 phases will give Hogar the tools to love and serve our little ones with excellence. Help us build a **Foundation** to grow **Forward**.

## Phase 3: Children's Gazebos

Designated fun zones for outdoor play, rain or shine, in creative, specialized learning stations.

**Estimate: \$80,000**

## Phase 4: Conference Room

A family with 35 kids has a lot of visitors. This space will provide a secure, private environment for parents and government visits as well as professional training.

**Estimate: \$100,000**

## Phase 5: Dining Room

A welcoming, healthy space to gather as a family for mealtimes. Will be built as an addition above the Conference Room.

**Estimate: \$175,000**

# How can you help?

Hogar De Vida  
Costa Rica

Hogar de Vida nurtures children ages birth to 10 who weren't safe while living at home. We sow the healing love of Jesus into their lives until the Lord helps them cross the bridge to their new heart family.

Up to 35 children at a time rest safely in our flock. We are the hands and feet of an amazing team of supporters who make this ministry possible. Please join us with your prayers and gifts.
